## Virtual Assistant

We provide Virtual Assistant services to clients globally who are very busy and looking to hire someone to help them out with administrative tasks such as managing calendars, doing outreach, etc.

We provide it as a team where we assign the tasks internally to VAs based on their skill sets.

We can do pretty much everything for which a process can be created.

We have worked with 40+ clients and have provided 4000+ hours of VA service collectively.

Our Virtual Assistants are internally trained and can easily adapt to new software as assigned. We are well versed in using AI tools as well, and learn everything very quickly.

It is almost like you just come to tell what needs to be done, and it gets done and most of the time you don't have to train us on anything.

Our VAs are highly trained, highly organized and versatile. Your life would become smoother than ever when you would see tasks being done on autopilot after hiring VAs from us.

Our VAs have several years of experience.

We can provide VAs full-time as well.

Our VAs also have basic knowledge of digital marketing as well as they work within a full-service marketing environment thus they built their knowledge on Canva for basic editing, wordpress editing to manage the websites, building backlinks for SEO, etc.

Once you hire VA from us, we can start working on it from the next day onwards in most cases.

We can provide multiple VAs as well if something needs to be worked on simultaneously.

# Best VA Projects

## Virtual Assistant:

**Client 1:** A UK-based musical band was preparing for their Europe tour, consisting of 32 shows across 12 countries in two months.

They needed support with administrative tasks and decided to partner with us, despite their initial skepticism about hiring a team instead of an individual VA they began working with us in May 2022. Our team efficiently Managed daily ad spend, Ticket sales, Hotel bookings, Email support, Social media Management, Promotional video creation, And a lot more.

The band's Europe tour was a resounding success, leading them to continue working with us for their previous UK tour and another UK tour planned for May 2024, totalling over 400 hours of collaboration so far.

**Client 2:** A Kuwait-based travel agency sought our help to streamline their operations, which included critical tasks such as VISA applications, Hotel bookings, Email support, Co-Ordinating with the group, Preparing picks and drops charts, And a lot more.

Despite the complexity of these tasks, our team successfully managed them with ease and directly coordinated with clients throughout the process.

This coordination not only ensured the smooth functioning of the tours but also saved a significant amount of time for the agency owner.

As a result, we have been working with the travel agency since December 2022, contributing to their overall business efficiency and totalling over 200 hours of collaboration so far.

**Client 3:** A US-based manufacturing company initially hired Kuldeep as an individual VA in 2018 and later provided VA service as a team. Throughout our collaboration, we have assisted them with a wide range of tasks, including Email list building, Website updates, Email campaign, management, CRM software management, Meeting notes, Graphic design for flyers and posts, And a lot more

Additionally, we have Scheduled meetings with sales representatives, Provided administrative support, Provided technical support, and Provided Marketing support.

Over the past 5 years, we have worked with the company on and off, accumulating more than 1500 hours of VA services, contributing to their overall business growth and efficiency.

## **Virtual Assistant Service Cost**

Fees for the services would be as follows.

- Ad-hoc hours - \$13 per hour.
- 20 Hours a month - \$220 per month.
- 40 Hours a month - \$360 per month.
- 80 Hours a month - \$640 per month.
- 160 Hours a month - \$1120 per month.

The Client can buy ad hoc hours in batches of 25 Hours. For example, 25 Hours, 50 Hours, 75 Hours, 100 Hours, and so on.

Ad-hoc hours don't get expire and can be used anytime as required without a fixed frequency whereas fixed hours per month are to be utilized within that month spread throughout the days of the month and not to be used in a single day or week.

We recommend starting with Ad-Hoc hours and as the workload increases can move towards the fixed hours a month.

## Website Development:

We help people build their websites from scratch. We cover all the parts of building a website such as Design, Content and Development so that clients can be rest assured of everything and can leave everything to us to be done.

We not only cover all the aspects of the website but deliver the website very fast.

We developed a single-page website and delivered it within 10 hours of its initiation and made a replica of a 22-page website in just 3 days when it was on a short deadline.

We have developed 60+ websites.

We build websites on WordPress and Shopify primarily but are well versed on all kinds of platforms and can build dynamic websites through various coding languages as well.

Some of our best websites:

- [Formidium Training Academy](#)
- [GrowthXL](#)

We also write blog content with SEO.

## GMB SEO

We optimize Google My Business Profile based on the keywords.

Then we work on it on a regular basis by doing posts on GMB profiles, getting reviews posted with keywords, and making relevant citations.

Through this, Google gets a signal that it is a relevant business for customers and recommends for people looking for services locally.

# Best SEO Projects

**Client 1:** When Doctors from a prominent Indore Infertility Clinic came to us, they told us that the traffic on their website was not increasing. They worked with other SEO agencies before, but their money went in vain.

We discovered 2 issues:

- 1.) The most important keywords were missing from the content.
- 2.) The website was difficult to navigate.

Their website received 30-40 clicks per day on average. The number had become static. It never increased; at most, they had 60 visitors per day.

Although their website had subject matter, the content lacked effective keyword usage. People were unable to engage with it, and leads were lost as a result.

There was also an issue with Keyword Targeting and Keyword Mapping. For example, if someone searched for "test tube baby," their website appeared, but when someone clicked on it, they were not taken to the "desired content".

We started to work on their website's SEO on April 6th, 2022.

We began by producing high-quality content for their website and blog posts. We used the Top 5 ranking keywords.

On both English and Hindi content, we worked on keyword targeting and mapping. As a result, if a user searches for a specific keyword in any of the two languages, the specific web page will appear.

After some time, we started to work on obtaining strong backlinks for the clinic's website while also working on the content.

Our efforts on the website soon paid off, and in 50 days, i.e on 26 May 2022 results began to emerge.

We reached more than 500 visits in a single day, and the path to increased website traffic had only just begun.

After a few days, the website's clicks stopped increasing once again.

It happened because all of the keywords we were using were in the top 5.

We were looking for a way to boost the website's visits once again. We decided to work on the "web stories" platform. It aided in regaining the website's growth.

The clinic's website has grown steadily since then to more than 4400.

Let's talk about numbers:

- In 50 Days (April 6th - May 26th) results began to show.
- Initially, there were 30-40 clicks per day, which gradually increased to 100-120 clicks
- It kept increasing to 450-500 clicks per day.
- Now 20- 25 people a day call them through their website, compared to only 2-3 people a day previously.
- Earlier, 57 people at most visited their website; now, a maximum of 4460 visited their website, with 600 coming from organic search results and the rest from the web stories platform.
- Website traffic increased by 1000% in 8 months.

### **SEO Service Cost**

GMB SEO - ₹8000 per month

Website SEO

Indian Client Pricing:

10 Keywords - ₹ 15000 - ₹ 23000 per month

20 Keywords - ₹ 27000 - ₹ 43000 per month

30 Keywords - ₹ 37000 - ₹ 61000 per month

40 Keywords - ₹ 46000 - ₹ 78000 per month

50 Keywords - ₹ 55000 - ₹ 95000 per month

Non-Indian Client Pricing:

10 Keywords - 350 USD - 550 USD per month

20 Keywords - 600 USD - 1000 USD month

30 Keywords - 850 USD - 1450 USD per month

40 Keywords - 1100 USD - 1900 USD per month

50 Keywords - 1300 USD - 2300 USD per month

Blogs would be written according to below:

10 Keywords - 2-4 blogs

20 Keywords - 6-8 blogs

30 Keywords - 10-12 blogs

40 Keywords - 14-16 blogs

50 Keywords - 18-20 blogs

The upper range of cost is including the content.

## Founders Details

Kuldeep Gera, the co-founder of Get Catalyzed has been in the marketing space since April 2014, completing a decade of experience very soon. He comes from a financially struggling background which pushed him to not say no to any opportunity and led him to do a marketing job along with various side hustles such as working in an MLM, teaching mathematics, working as a background dancer, doing Tele-calling and whatnot. While not making it in any of these fields, he decided to pursue marketing again as a freelancer, and even though he got his project after making 150 applications, he kept on going and his career took off in a matter of few months to touch the heights in monthly earnings that was a dream of every freelancer. Soon it hit again to dropping him to zero again, and then building up again. During the lockdown, he began pursuing his love for writing, through a blog "Experiences that Matters". Then entered, Sachin Jangir, the other co-founder of Get Catalyzed started helping Kuldeep with making his blog better with his website design skills and SEO skills. While Sachin solely focused on helping Kuldeep, Kuldeep on the other hand was judging Sachin's knowledge foreseeing a partner in him. Along with Sachin, Kuldeep laid the foundation of Get Catalyzed in 2020, a full-service digital marketing agency.

The other part of Kuldeep's journey can be found on his website - [www.kuldeepgera.com](http://www.kuldeepgera.com)

Sachin Jangir, the co-founder of Get Catalyzed entered into the space back in 2016, making him a seasoned expert in it. He left home at an early stage and lived life in a hostel for studies, and left his studies too in order to chase a bigger dream. He has always been highly ambitious someone who won't settle for less. With this attitude, he entered into MLM to create a big name, and big money as well. Somehow it didn't do well but made him more ambitious towards his career. When he left the MLM, he started a job in BPO while learning to build websites from YouTube. As his career progressed, he moved to work for HealthKart joining the process in its initial stages. During his HealthKart time, he built an eCommerce store by the name of Atmyhome and started selling home decor products on it along with building websites for free for his peers. While growing his eCommerce store, he started learning other skills such as SEO, running paid advertisements, etc. During the lockdown, as the world got slow, Sachin's learning hunger became faster, and he started learning more and more. During this time, he met Kuldeep Gera again after his MLM days and started helping him with Digital marketing activities for his blog. Along with that, Sachin was developing a website for his peers for free, and Kuldeep held his hand and showed him the way on how he can charge for it as well. Kuldeep Gera was good at client acquisition but lacked in-depth knowledge of various digital marketing methods, on the other hand, Sachin Jangir had in-depth knowledge of various digital marketing methods but lacked client acquisition skills. They were a perfect match, and identifying that they laid the foundation of Get Catalyzed in 2020, a full-service digital marketing agency.

Job Title - Coach and Bob Proctor Program Facilitator

Services Offered - Personal Branding

Testimonial - I hired Kuldeep and his team at Get Catalyzed 5 months ago because I was in that place in my business where I couldn't do things all by myself any more. I knew I needed to have better social media presence, a much more professional website, a couple of landing pages, new logo, etc. Hiring different people/companies to do each of these seemed like one more thing I would be wasting my time on and when I spoke to my Business Coach Gary Searle, he recommended me to Kuldeep. It was a perfect fit, a one stop shop - so to speak. He took the time to understand my business, my market and, most importantly, me. My business is now positioned to grow vastly because I have all the professional pieces in place thanks to them. It was time and resources well invested.

Kuldeep is smart, creative, helpful and open to ideas. He is patient and very fast to give feedback or take action. I would recommend anyone who would like to create a new website or to beautify an already running website, to consider working with him. It has been a pleasure working with you... Thank you, Kuldeep!

Client Name - GARY SEARLE

Company Name - Customerse

Job Title - Founder - Small Business

Services Offered - Website Development

Testimonial - Myself and Kuldeep have been connected now for a while. I quickly saw Kuldeep as someone who is going to do great things. We built up a good working relationship and friendship. But Kuldeep didn't know if I'd ever hire him for anything, but to him what was most important was being a valued part of my community. When a website became an important part of my business, I instantly thought of Kuldeep and asked him to create it for me. Within ten hours the website was completed and the end product looked great. He made small changes I requested after he finished. He really went above and beyond, I couldn't recommend Kuldeep and Get Catalyzed more.

Job Title - President & Owner - Individual

Services Offered - Virtual Assistant

Testimonial - I hired Kuldeep to help me grow my social media presence, including a private Facebook group for my coaching business. He met all the goals I had established and went above and beyond my expectations. He is extremely knowledgeable about social media, especially LinkedIn and how to use it to market coaching services. I also contracted with him to re-brand some print materials and I am very happy with the results. Kuldeep is very easy to work with, professional, and extremely talented. I highly recommend him!
